

lookat.me™

Digital Asset Management (DAM)

lookat.me™ DAM solution

Through its Collaboration with SPECTRUM Partner, Media Equation Pty Ltd, Collections Trust introduces lookat.me™, a Cloud based, DAM solution that may be used as a stand alone system or integrated with the other offerings of the total muse.me™ solution.

The Museums, Libraries and Archives Sector has an important role to play in using digital technologies to deliver improved access, increased information and more opportunities for participation in its rich diversity of resources and services, plus achieve high quality standards in the management and preservation of digital resources.

This can only be achieved through the use of a Digital Asset Management system that provides:

- elimination of redundant storage systems
- management of image cataloguing and storage
- infrastructure for digital preservation
- digital rights management
- documentation of image provenance
- linkage to other core systems that, collection information, or publishing

What is in the lookat.me™ Cloud?

A fully functional DAM solution:

- Digital Asset Management system – assembly and delivery available within 7–14 business days
- Your archive catalogue and metadata
- Your digital masters and derivatives – images, video, audio
- Secure web access to selected items for general public users
- Secure web distribution of images to authorised users
- Rich media management of various asset types (e.g. photos, video, audio)
- Rights management and risk control of assets
- Optional integration to a Business Process Management application to control the digitisation and copyright clearance process

- Up to 50 GB of data uploads
- Watermarking of preview images
- Access to Technical Help Desk
- Album functionalities
- XMP metadata extraction on four standard fields
- Standard metadata templates for images and video

What are the benefits of the lookat.me™ solution?

The lookat.me™ DAM offers a vast range of benefits out-of-box:

- Digital preservation
- Opens up new revenue streams
- Promotes best practice and efficient management
- Hosted solution – no management or installation
- Minimises risk, enables disaster planning
- Workflow management to control the digitisation and copyright clearance process

For those institutions that are required to maintain high resolution images on-site, this can be addressed via the Cloud Computing Client Storage (C3S) option of lookat.me™.

What does lookat.me™ cost?

The use of the lookat.me™ Cloud solution is on an Annual Subscription basis. The base DAM functionality is available for £2,200 establishment plus £2500/annum/member institution.

Additional storage capacity, lookat.me™ features and options are available. Prices upon request.

Prices subject to VAT where applicable
